onverted boxcars have not been determined. *

25X1A

25X1A

Comment. Information on the procurement and storing of special equipment adequate for the conversion of approximately 7,000 cars was previously reported. Thether this conversion will be restricted to the Frankfurt/Oder Dww (large repair shop) is not known. Also it is not clear whether the reported equipment of boxcars is a precautionary measure or whether it is connected with large-scale transportation operations, probably expected only for the period at the end of maneuvers.
